

## JINKE HANLIN EBOOK DEVICE- V3 USING VIZPLEX EPD IS GREATLY WELCOMED

*Hanlin eBook V3 is launched for worldwide sale now.*

**Tianjin, China, September 25, 2007** - Tianjin Jinke Electronics Co., LTD, a leading eBook device developer and manufacturer in China, announces the worldwide launch of their Hanlin eBook V3 based on Vizplex™ epaper technology from E Ink, which is greatly welcomed by the customers.

The worldwide release of Jinke's V3 follows the successful worldwide launch of the V8 and V2 over the past year. The Hanlin eBook V3 offers easy operation, low power consumption with all the benefits of an electronic paper display and a weight of 220g. The display, which utilizes Vizplex™ display, is 6 inches diagonal. The V3 will support a variety of content services including eBooks and eMagazines, as well as a wide variety of content in common formats including as PDF, DOC, WOLF, HTML, MP3, TXT, FB2, DJUV and Images, it will support epub, mobipocket formats.

The V3 runs on LINUX OS, and open SDK to cooperators, supporting multi-language which includes English, Chinese, Russian, Ukraine, Turkish, French, Spanish, German, Bulgarian, Japanese and Korean etc. And it is available for purchase now.
